VGM EVALUATION METHOD: (PLEASE MARK WITH "X")

Method 1 (by weighing)

After a shipment has been completely packed, the shipment can be weighed by regular equipment (scales, fork lift scales, crane scales, etc). Must meet national certification and calibration requirements

CALCULATED TO KGS

924

Method 2 (by calculation)

All packages and cargo items may be weighted individually, incl. mass of dunnage, packing and securing material and added to Tare weight of the container () Tare weight for FCL shipment only).

The duly authorized contact person of the shipper (by name and signature provided in the statement) hereby certifies, that the above mentioned shipment details have been evaluated carefully and according to the requirements of the International Convention for the Safety of Life at Sea (SOLAS); as they have been published in Chapter VI, Part A, Regulation 2 - Cargo Information. This Verified Gross Mass statement contains the VGM amount per container (for FCL cargo) or per shipment (for LCL cargo). Amendments, updates and/or corrections to the verified weights have to be communicated and submitted to the responsible Ocean Freight department immediately and without any delay.

We understand and confirm that missing, incorrect and/or belated VGM statements may result in non-acceptance of the shipment vy the vessel operating ocean carriers and a delay in the originally planned schedule. Any additional cost caused by delay due to non-acceptance of the shipment by the carrier to be covered by VGM declaring party (as undersigned above)
